CANARIAS

- HPL - Pilotaje del litoral canario
- Interreg
- Mapa de recurso eólico de Canarias (ITC)
- MARINE PLAN - Política y planificación espacial marina
- PLOCAN – Plataforma Oceánica de Canarias
- RedPROMAR - Red de Observatores del Medio Marino en Canarias
- SITCAN - Sistema de información territorial de Canarias
- WATCH - Iniciativa Macaronesia (creación de áreas protegidas para cetáceos)

ESPAÑA

- Atlas virtual de aves de España
- Catágo de datos del medio marino de Andalucía (Junta de Andalucía)
- ICM - Geología marina (mapa batimétrico y toponimia)
- IDE España (geoportal - visor)
- IDE Instituto Español de Oceanografía (geoportal - visor)
- IEHEM - Inventario Español de Hábitats y Especies Marinos
- RedICTIS - Red Marina Infraestructuras Científicas y Tecnológicas Singulares
- Red Natura 2000
- SOCIB (Sistema de observación costera de las islas Baleares)

UNION EUROPEA

- Copernicus - European marine environment monitoring service
- EDIOS - European Directory of the Ocean-observing System
- ELOISE – European Land Ocean Interaction Studies
- EMODNET Portal (Gateway to European marine data)
- EUR-OCEANS – Climate change & Marine Ecosystems
- European Atlas of the Sea (MarSea)
- EYE-ON-EARTH – from the European Environment Agency
- INSPIRE Europa (geoportal - visor)
- MERSEA – Marine Environment and Security for the European Area
- HERMES – Hotspot Ecosystem Research on the Margins of European Seas
- OCEANS – Consortium for European Research on Ecosystem under Anthropogenic and Natural Forcings
- PROCAS - Protection and Conservartion of European Seas
- SEADATANET - Pan-European Infrastructure for Ocean & Marine Data Management

GENERAL

- ARGO – The Global Array of Profiling Floats
- BLUENET – Australian Marine Science Data Network
- CABLEMAP - Red mundial de cableado submarino de telecomunicaciones
-

CEFAS – Marine Monitoring (UK)

- CMAR - Marine and Atmospheric Research (CSIRO)
- CNMOC - Commander Naval and Metereology and Oceanography Command (US)
- EARTH. Global weather conditions
- EBM - Ecosystem-based Management Tools Network
- FGDC - Marine Boundary Working Group (NOAA)
- Geographic Information Systems in Oceanography and Fisheries
- GEOSS – The Group on Earth Observation System of Systems
- GEORACES - An International Study of the Marine Geochemical Cycles of Trace Elementes and their Isotopes
- GISLANDS - International Summer School on Marine Spatial Planning
- Global Forum on Oceans, Coasts and IslandsGlobal Forum on Oceans, Coasts and Islands
- GMES – Global Monitoring for Environment and Security
- GOOS – Global Ocean Observing System
- HEALTHY SEAS - Sharing a passion for thealthy seas and sustainable products
- JCOMMOPS - In situ Observing Platform Support Centre
- ICAN – International Coastal Atlas Networks
- IMBER - Integrated Marine Biogeochemistry and Ecosystem Research
- IMOS – Integrated Marine Observing System
- IODE - International Oceanographic Data and Information Exchange (UNESCO)
- IOOS – Integrated Ocean Observing System (US)
- IUCN – The World Conservation Union, Marine Programme
- LifeWatch ERIC
- MAC 2007-2013 – Programa Interreg de Cooperación Transnacional
- MARBEF – Marine Biodiversity and Ecosystem Functioning (EU)
- MEDIN - Marine Environmental Data & Information Network
- MFSTEP – Mediterranean Forecasting System
- NOAA - Satellite and Information Service (US)
- NOAA Coastal Services Center - Digital Coast
- OBIS - Ocean Biogeographic Information System
- OBIS- SEAMAP
- OOSTethys - OGC Oceans IE
- OPENIOOS - Integrated Ocean Observing System Testbed
- PlanetOS (*antes Marinexplore*)
- R2R – Rolling Deck to Repository (US)
- SEAGRASSNET - Global Seagrass Monitoring Network
- SEA-SEARCH - European Directory of Marine Organisations
- SEATURTLE – Sea Turtle Biology and Conservation
- SENSEnet – International Sensor Development Network (EU)
- World Ocean Database (NODC)
